PROJECTS

E-COMMERCE WEBSITE (REACT JS)   🔗Live-link | Source-code

- **Product Catalog:** The website features a clean and organized product catalog, allowing users to browse through various items with images, descriptions, and prices.
- **Responsive Design:** The website is mobile-friendly, adapting to different screen sizes for an optimal shopping experience on phones, tablets, and desktops.
- **User Authentication:** There's a login feature for users, which suggests potential integration for account-based shopping, personalized experiences, or member-specific deals.

Technologies: React.js, React-Bootstrap, React Dom, Tailwind CSS, React Slick Slider, Material UI

EDUCATIONAL WEBSITE (REACT JS)   🔗Live-link | Source-code

- **Course Listings:** The website provides an organized structure for educational courses, allowing users to browse through available topics and classes.
- **Responsive Layout:** The site adjusts well for mobile devices, ensuring a seamless user experience across different screen sizes.
- **Interactive Learning Sections:** There is a user-friendly interface designed for easy navigation through various learning modules, enhancing the educational experience.

Technologies: React.js, Tailwind CSS, SASS/SCSS, React Slick Slider, Material UI, Ant Design
